WATERSTOP BY WARMING TRENDS

THE BEST FLAME AND PERFECTED WATER MITIGATION

The revolutionary WATERSTOP® fitting protects electronics and valves from water and debris.

THE ONLY SOLUTION FOR AN INDUSTRY-WIDE STRUGGLE

A patent-pending fitting, the **WATERSTOP®** protects electronics and valve systems from water AND debris while delivering outstanding flame performance.

The **WATERSTOP** also keeps the gas supply line dry and continues to allow the **CROSSFIRE®** brass burner to easily self-purge any water in the manifold when lit.

Contact us today to learn more about Warming Trends Superior Fire Features!

Warming Trends is the only US-based manufacturer of superior fire features, offering the patented **CROSSFIRE®** brass burner. As a vertically integrated company, we manufacture all our prime products in our Colorado facilities, resulting in outstanding quality and industry-best lead times. We offer hundreds of standard burners and endless custom options to fit your project(s). Our burners are built to last a lifetime and are backed by a lifetime guarantee.
