The **AON DISPLAY** is a compact version of our AON™ Fire Tables.

Designed to showcase these tables without the space-claim of the full-size unit. The AON Display highlights the beautiful craftsmanship and finish of the tables as well as the patented **CROSSFIRE®** Brass Burner, renowned for its unmatched flame performance and fuel efficiency. Made in Colorado, USA, the Display exemplifies the superior quality and performance Warming Trends is known for.

The 10" x 20" x 14" Display weighs 32 pounds and connects to a 20 pound propane tank. The complimentary Magnetic Sell Sheet highlights the features, benefits, and options of the AON Fire Tables.
