WARMING TRENDS®

Bring spaces to life where friends and family can gather, relax and entertain. As your project partner, Warming Trends delivers the products you need to create outstanding spaces with **AMBIANCE, LIGHT, WARMTH** and **WOW FACTOR**.

SUPERIOR FLAME - The **CROSSFIRE**® Burner patented technology produces a taller, brighter, more natural flame that replicates a wood-burning fire while consuming less fuel.

MADE IN THE USA - Our products are proudly manufactured in the United States, supporting our local Colorado commerce as well as other manufacturers across the country. Consumers benefit from more reliable lead times.

100% BRASS - All **CROSSFIRE** Burners are made from 100% brass. Unlike other burners made from stainless steel, brass is corrosion resistant and will not rust, which eliminates the need for replacement.

LIFETIME WARRANTY - **CROSSFIRE** Brass Burners are constructed to last and are backed by a lifetime warranty.

READY-TO-FINISH KIT (RTF)

SIMPLY PLACE ON SITE, CONNECT TO THE GAS SUPPLY, ADD VENEER, AND YOUR FIRE FEATURE IS COMPLETE.

EASY INSTALLATION FOR YOU

- Aluminum frames covered with concrete board, ready to be easily and quickly completed with your choice of stone or veneer.

- Simply place on site, connect to the gas supply, add stone or other veneer, and your fire feature is complete.

- Feature can be placed on both patios and decks - any stable flat surface will work for installation.

RELIABLE LEAD TIMES

- Sourced and manufactured in the USA

- Ships to any location at your discretion

WIDE RANGE OF DESIGN AND SIZE CHOICES

- Exterior customizable for your client's preferences

- Available for natural gas or liquid propane

- 110K - 350K BTUs subject to size and shape of opening

TECH TIP

Ready-to-Finish Kits come with a Fire Pit Vent Kit (FPVK) but they do not come pre-installed as placement and installation depends on the veneer. Vents are to be installed by contractor on site. Key Valves (FK1 and FK2) do not come pre-installed either.

**Your design is custom.**
Your fire feature should be, too.

WARMING TRENDS®

CUSTOM READY-TO-FINISH KITS

■ Every day Warming Trends designs and manufactures truly custom fire feature solutions.

■ Burner swap options on stock RTF kits are also available.

■ Let us create a custom feature for you. We'd love to help.

FIRESTORM® STEEL LOG

■ Handcrafted, one-of-a-kind steel gas log features an integrated linear burner and is sized perfectly for the FR6036 Rectangular Ready-to-Finish Kit.

■ Custom designs and sizes available

ACCESSORIES

*Cover is recommended with all electronic ignitions. The warranty will be voided if a cover is not added to system.

PUSH BUTTON IGNITION

Upgrade to an electric Push Button Ignition. Turn the key valve to the ON position and push the button to ignite the burner.

MERCURY IGNITION SYSTEM

The Mercury Ignition System™ provides a layer of safety in the event a burner's flame is unexpectedly extinguished and up to 240K BTU Gas Output.

24V PLATINUM IGNITION SYSTEM

The Platinum Ignition System™ delivers superior quality, performance, and value to our partners. Expertly engineered, this innovative ignition has been designed to provide up to 680K BTUs of Gas Output.

MEDIA

Complete the look of your fire feature with various media options, including glass or lava rock, steel or a ceramic log set. Scan to view:
