

INTRODUCING THE WATERSTOP®

INDUSTRY-WIDE STRUGGLE
ONLY ONE SOLUTION

A patent-pending fitting, the WATERSTOP® protects electronics and valve systems from water AND debris while delivering outstanding flame performance.

The WATERSTOP also keeps the gas line supply line dry and continues to allow the CROSSFIRE® brass burner to easily self-purge any water in the manifold when lit.

PERFORMANCE

We deliver the tallest, brightest, most natural flame while consuming less fuel. Regardless of the fuel supply, a Warming Trends system will provide the best flame in the industry.

DESIGNED, ENGINEERED, AND ASSEMBLED IN THE USA

We design, engineer, and assemble all Warming Trends products in our Colorado facilities, resulting in outstanding quality and reliable lead times.

LIFETIME WARRANTY

Our patented CROSSFIRE[®] burners are rust and corrosion resistant and backed by a lifetime warranty.

SUSTAINABILITY BY DESIGN

All of our brass burners and aluminum plates are sustainable and recyclable, resulting in a smaller carbon footprint. Environmentally aware, we engineered our patented burners to be the most fuel-efficient on the market.

DON'T SETTLE FOR **LESS.**

Competitor Burner with 180K BTUs

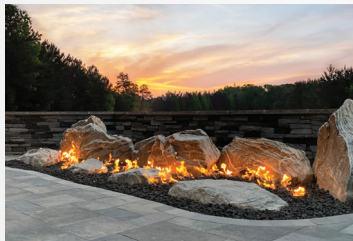

U180 CROSSFIRE[®] Brass Burner with 180K BTUs

AON VESSEL COLLECTION

Choose from a variety of premium vessels, including metal, GFRC, or mixed material.

CUSTOM DESIGNS

Creative solutions expertly designed to fit the exact specifications of your custom project.

READY-TO-FINISH KITS

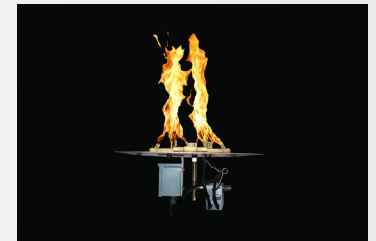

Simple and fast fire feature construction. Delivered ready to install and complete with media and veneer.

UNIVERSAL PAVER KITS

Convert your paver kit to gas. Standard size ranges and bespoke kits designed to fit with many popular paver block kits.

ELECTRONICS & ACCESSORIES

Choose from a full lineup of electronic ignitions - including high capacity and low-voltage. Complete your project with steel or ceramic log sets, windguards, and a variety of media.
