CATALYST™ IGNITION SYSTEMS

BY WARMING TRENDS®

UNMATCHED PERFORMANCE. OUTSTANDING RELIABILITY. INDUSTRY-LEADING WARRANTY.

COMPLETE LINEUP

Warming Trends offers the industry's most complete ignition lineup. Whether for convenience, safety or code compliance, we have the perfect ignition solution for every project.

BUILT TO PERFORM

Built with quality, reliability, and the value Warming Trends is known for. Our ignitions are engineered to deliver outstanding performance in even the harshest enviornments.

UNIVERSAL COMPATIBILITY

Integrates seamlessly with any burner system. Pair with a CROSSFIRE® burner with patented WATERSTOP® technology for the ultimate performance and protection.

FIVE SOLUTIONS. ENDLESS POSSIBILITIES.

PLATINUM

Premium 24V ignition for high-capacity projects.

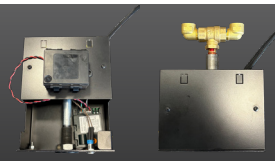

24 Volt | Up to 680,000 BTU

COBALT

Premium 12V ignition for poolside installations.

12 Volt | Up to 490,000 BTU

CARBON

Direct-wire OR battery ignition for installation flexibility.

3 Volt | Up to 360,000 BTU

MERCURY

Battery-operated ignition with safety shut-off.

Battery (1AA) | Up to 240,000 BTU

PUSH BUTTON

Simple & convenient ignition at the push of a button.

Battery (1AA) | No specific BTU limit

*For burners above 300,000 BTUs, electronic ignition is recommended for added safety, but is not required.

SUPERIOR IGNITION SYSTEMS

Engineered to perform. Built to last. Trusted by professionals.
